

Sierra Leone subsidizes home solar container energy storage systems

Overview

A new SLE 830 million (EUR 34mMillion) initiative funded by the European Union will further advance Sierra Leone's vision of access to sustainable energy. The initiative will deliver sustainable, affordable energy and create opportunities for all across the nation. Freetown, 5th June 2025: In a. Asantys Systems has developed containerized solar-storage solutions in Sierra Leone, featuring solar containers with capacities ranging from 30 kW to 130 kW. The containers include inverters from German manufacturer SMA and batteries from Hoppecke Batterien. Battery storage technologies, such as lithium-ion batteries and lead-acid batteries, enable households to store surplus solar energy for use during periods of low. With only 26% of Sierra Leone's urban population and 5% of rural residents having consistent access to electricity (World Bank 2023), home energy storage systems have become critical. The German system integrator and EPC. Case study from Sierra Leone - Containerized power asset solutions for solar off-grid mini-grids Sierra Leone's challenging socio-economic context includes high poverty rates, particularly among children, unemployment, a serious lack of healthcare and limited access to electricity [1].

Sierra Leone subsidizes home solar container energy storage system
