

# Single-phase outdoor energy storage cabinet for users in remote areas

## Overview

---

Built for outdoor use and designed to handle harsh environments, it's the ultimate plug-and-play solution for decentralized power systems in homes, businesses, and remote sites. Let your users get to know you. The Cevain Outdoor Cabinet System combines solar PV, battery storage, and smart energy management in a single compact unit. Features C4M anti-corrosion and IP54 protection, a split design compatible with lithium and lead-acid batteries, seamless BMS communication, optional air-cooled/liquid-cooled battery systems. The emergence of outdoor cabinet energy storage systems provides a new solution for these areas, ensuring that energy supply can be guaranteed anytime, anywhere. Flexible Expansion: The system utilizes virtual synchronous machine technology for long-distance parallel communication, enabling.
