

# Slovakia smart energy storage battery manufacturer

## Overview

---

FUERGY is a Slovak technology company that specializes in energy optimization and installed the largest smart battery systems in the V4 region. We have developed our own, highly scalable smart battery storage system called Brain and the software platform mosAlc, on which we build applications for. TESLA Liptovský Hrádok specializes in battery energy storage systems (BESS) and integrates renewable energy solutions, including solar and wind power. Their STILLA product line provides compact energy storage for smaller renewable applications, supporting efficient energy consumption and enhancing. ENGIE's first battery storage system in Slovakia, utilizing Pixii's PowerShaper technology, began operations in January 2024. But here's the kicker – most international rankings overlook Central European players. It provides support services for the power grid operator SEPS. It expects revenues of €8m and gross profit.
