

# Small solar container

## Overview

---

A mobile solar container is a factory-built, transportable unit that integrates solar panels, battery storage, and power controls—providing plug-and-play, rapid-deploy clean electricity for remote sites, events, and emergency response. Due to its construction, our solar panels on shipping container offers unmatched flexibility and maneuverability. Only 16 left in stock - order soon. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. We make mobile solar containers easy to transport, install and use. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. Foldable solar frames save space and simplify maintenance. Equipped with 120 N-type bifacial cells for efficient energy generation. By delivering clean, accessible electricity, we support sustainable communities and contribute to a healthier.
