

# **Solar container outdoor power that can store two kilowatt- hours of electricity**

## Overview

---

A containerized solar power container storage system can store several kilowatt-hours of energy — enough to power homes, small offices, or even mobile hospitals. By delivering clean, accessible electricity, we support sustainable communities and contribute to a healthier planet. SolaraBox Mobile Solar Container brings green energy wherever you. A complete 2MWh energy storage system + 1MW solar turnkey solution includes the following configurations: Optional solar mounts, PV combiner boxes, and PV cables. – The number of panels you'll need depends on your location's sunlight hours, energy consumption, and desired level of self-sufficiency.
