

# Solar energy prices in Mali

## Overview

---

Without such subsidies, solar energy in Mali is about twice the price of the traditional fossil fuel energy used in cities. For now, people pay a subscription ranging from \$30 to \$164 for a meter and pay about \$0. Let's break this down: Mali's average electricity. KARAN, Mali (AP) — A solar power plant in this rural corner of Mali has jolted a village to life and awakened dreams of steady power in other areas of this West African nation as it sees unprecedented growth in renewable energy. The border village of Karan and its 3,000 people used to go days. With an average of 2,819 hours of sunlight annually out of a total of 4,383 possible hours, Mali receives a significant amount of solar irradiance. This equates to an average of 7. Since 2010, the Mali is endowed with plentiful solar and hydro potential, and energy sector development remains a priority for the Malian transition government. Current power production comes from a roughly equal mix of diesel and hydraulic sources and is less than 700 MW of capacity for a population of. Although power cuts are currently shorter than last year, an energy crisis continues to Weaken Mali's economy which is already reeling from te consequences of two coups from 2020 and attacks from armed separatist groups from the north linked to Al Qaeda. In the heart of West Africa, Mali is.
