

Solar inverter market space

Overview

The global solar pv inverters market size is forecasted to reach USD 14. 87 Billion by 2035 from USD 7. The paradigm shift toward the integration of renewable energy resources will fuel the adoption of efficient systems. The market's expansion is underpinned by a move from simple DC-to-AC conversion toward smart, grid-forming. The World is moving towards green and sustainable energy solutions, the demand for solar power inverters is increasing across the various end use industries.

Solar inverter market space

Solar Inverter Market Size to Hit USD 25.81 Billion by 2034

The solar PV inverters market is segmented by inverter type, application, and geography. By inverter type, the market is segmented into central inverters, string inverters, and micro-inverters.
