

# Solar panels for picnics

## Overview

---

Portable solar panels come in various sizes and capacities, designed to meet different needs. They can easily fit into your picnic basket or backpack, taking up minimal space. Our attractive and heavy-duty smart solar picnic table is an excellent addition to bring both functional seating and mobile device charging to any outdoor space, with the ability to charge up to 6 devices simultaneously (2 charging pads & 4 USB ports), and provide connectivity through a WIFI. Sunbolt Solar Workstations and charging solutions power productivity using the world's most dependable resource, the sun. Designed and built with a quality and sustainability-first attitude, each product is made from architectural-grade, eco-friendly materials. With multiple charging outlets. They come equipped with solar panels that absorb sunlight, converting it into energy to power the cooling system. This means no more constant trips to buy ice or worrying about your perishables. PairPicnic, where solar meets social.
