

Solar photovoltaic panel voltage Yingli

Overview

Yingli Solar PV modules are designed to meet the requirements for the standards IEC 61215 and IEC 61730, application class A. Modules rated for use in this application class may be used in systems operating at greater than 50 V DC or 240 W, where general contact access is. This manual applies to photovoltaic modules (“PV modules”, also commonly known as solar panels) manufactured by Yingli Energy Development Company Limited (“Yingli Solar”), and is explicitly written for qualified professionals (“Installer” or “Installers”), including without limitation licensed. Yingli is a leading Chinese manufacturer of solar PV modules. Yingli is one of the leading solar panel manufacturers in China. The panels are constructed with a heavy duty anodised aluminium provides high wind resistance and convenience to enhance power output and reduce dirt and dust buildup. In order to avoid module damage, do not clean PV modules with a power washer. Operate self-cleaning from normal rain showers.

Solar photovoltaic panel voltage Yingli

Yingli Solar Panels

The two primary reasons that Yingli has cited as the motivations for vertically integrating their solar panel production are cost and quality. Because they oversee everything from the mining of polysilicon to the ...
