

Solar power generation and application lesson plan

Solar power generation and application lesson plan

UO SRML: Solar energy lesson plans

A series of six lesson plans are now available: three of these include student lab activities and the other three cover the basics of solar cells and solar electric systems.

Exploring Solar Energy Student Guide (7 Activities)

ENERGYOwner: NEEDSOLAR COLLECTORSA solar collectorSOLAR SPACE HEATINGSolar WATER HEATINGSolar ELECTRICITYDish/Engine Systems are like satelliteConcentrated Solar Power (CSP)is one way to capture sunlight and change it into usable heat energy. A closed car on a sunny day is like a solar collector. As sunlight passes through the car's windows, it is absorbed

by the seat covers, walls, and floor of the car. The absorbed energy changes into heat. The car's windows let radiant energy in, but they don't let all the heat out See more on Science Buddies
