

Solar power generation panel green link

Overview

Versatile and innovative solution for providing shaded parking spaces while generating renewable energy. This product combines the functionality of a carport with solar panel technology, making it ideal for residential, commercial, and industrial applications. ECOLOGO certified products are made with materials that reduce environmental impact at one or more stages of their life cycle, from raw materials to end of life. An ECOLOGO certification indicates that a product has met environmental performance standards, which include criteria in some or all of. Nature's Generator offers a plug-and-play system designed for fast installation and lower setup costs. Quickly harness solar or wind energy to provide your home with simple, affordable, and reliable power. Take peace of mind with you wherever life leads you. Why Choose Greenlink Smart Panels?

1. Advanced Power Management Our smart panels offer a revolutionary way to control and optimize your building's electricity.

Solar power generation panel green link

Green The Link

Installing solar panels with Greenlink Solar reduces energy bills, lowers your carbon footprint, and boosts property value, all while providing clean, renewable energy.

 **Efficient Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPPT Trackers, 150% DC Input Overvoltage
- Max. PV Input Current 15A, Compatible with High Power Modules

 **Intelligent Simple O&M**

- IP65 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

 **Flexible Abundant Configuration**

- Plug & Play, EPS Switching Under 30ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 Units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation

50KW modular power converter

- Flexible Configuration**
 - Modular Design, Expanding as Required
 - Single/Double, Wall Mounted
 - Installed in Parallel for Expansion
- Powerful Function**
 - Support PV+ESS
 - Grid Support, Equipped with SVC Technology
 - On-Grid and Off-Grid Operation
- Reliable Protection**
 - Outdoor IP55 Design
 - Surge Protection Function Equipped
