

Solar power plant scam

Overview

We'll walk you through the most common solar scams, the red flags that should make you pump the brakes, and how to find installers you can actually trust. Disclaimer: This article is intended to provide an informational overview of consumer protections for interested homeowners. While there are still many honest and reliable solar panel companies on the market, it can be hard to differentiate the good guys from the rest. Here are red flags to look out for when. Did a salesperson knock on your door and promise free rooftop solar panels at no cost to you?

Or say you'll never have to pay another electricity bill because government programs, grants, or rebates cover your solar installation?

It's likely a scam. A solar panel scam traps homeowners in long-term financial and legal headaches, often before they realize what has happened. » **MORE:** Pros and cons of solar panels There's no such thing as free solar panels. There are no federal government giveaways for.
