

Solar power to solar container lithium battery energy storage in Sydney Australia

Overview

At Modbox, we design and build shipping container solar solutions to securely house your solar panels, batteries, inverters, and other equipment. Housed in durable shipping containers, our systems are engineered to meet the growing demand for renewable. At Apex Energy Australia, we offer state-of-the-art Battery Energy Storage Systems (BESS) tailored to meet diverse energy needs. Assembled and tested in Brisbane, Australia. Whether you're powering a remote worksite, an off-grid project, or a backup energy system, our containers are built tough for Australian conditions. To advance clean energy development, both the federal and state governments are actively introducing battery storage subsidies to encourage more households and businesses to install energy storage systems, thereby enhancing energy independence and grid stability. We also deliver special projects.
