

Solomon Islands flow battery energy storage container manufacturer

Overview

A Finnish energy storage company bringing Arctic-grade battery tech to sun-drenched Solomon Islands. Sounds like a quirky marriage between snowstorms and palm trees?

Yet this unlikely partnership is solving real energy challenges in one of the world's most remote. We innovate with solar photovoltaic plant design, engineering, supply and construction services, contributing to the diversification of the energy matrix in our. We provide operation and maintenance services (O&M) for solar photovoltaic plants. These services are provided by a team of world-class. The GS200 Energy Storage System is self-contained, modular storage system delivering the most cost-effective and safest energy storage on the market. Recent innovations like second-life EV battery repurposing offer cost-effective solutions - imagine giving old car batteries a new purpose. The Cook Islands in the Pacific will host a 5.6MWh lithium-ion battery energy storage system for the integration of renewables, in a project funded by the Asian Development Bank, European Union and Global Environmental Fund.
