

South Korea EK Energy Storage Project

Overview

The South Korean government is launching a multi-billion-won initiative to deploy large-scale energy storage systems (ESS) across the country, in a bid to alleviate mounting pressure on its transmission and distribution infrastructure. The outcome could reshape the strategic. The Gyeongsan Substation - Battery Energy Storage System is a 48,000kW lithium-ion battery energy storage project located in Jillyang-eup, North Gyeongsang, South Korea. The rated storage capacity of the project is 12,000kWh.
