

Special-shaped solar panel size

Overview

Use our Custom Solar Panel Design Tool to see our standard sizing options. Standard Residential Panels Optimize Space and Handling: The industry-standard 60-cell panel dimensions (65" × 39" × 1.5") aren't arbitrary – they represent the optimal balance between power output, installation ease, and roof space utilization. At 40-46 pounds, they can be safely handled by. Yes, it is possible to make a solar panel in a custom shape. At Voltaic, we manufacture custom and standard small solar panels and while most are rectangular, we have experience designing and deploying a full range of interesting shapes and sizes. Each panel size connects directly to how much power it can produce. Circles and non-rectangular shapes filled. This means custom overall dimensions (width, length and thickness), as well as special features like internal cutouts or integrated mounting holes. 5mm (flexible ETFE/PET) up to ~7.5mm or more (glass-backed cells).
