

Stand-type pneumatic down-the-hole drilling for photovoltaic

Overview

It has a strong drilling diameter (e., 70 - 400mm), depth (up to 30m), and impact performance. The walking system is suitable for complex terrains (with a climbing angle mostly between 30° - 35°), and can efficiently complete the construction of photovoltaic pile foundations. DRILL PANGOLIN & LIUTECH are teamed up to manufacture an air compressor matching KHITAN series hydraulic crawler drilling rig, reaching the drilling target of No Fastest Only Faster. It adopts a PC heavy-duty track assembly, which has better walking performance and high stability; 2. Select the PERMCO. Hardrock solar pile driver can drive the pile into soil or rock to support the solar panel for solar power station system and guardrail installation, the common application is for Photovoltaic panels installation There are several type Photovoltaic rig, from manual rig, to semi-hydraulic pile. The multi-functional photovoltaic pile driver is specially designed for projects such as photovoltaic power stations., 70 -. The SPV-385Y Photovoltaic Drilling Machine is a professional equipment for solar panel installation, featuring advanced multi-angle adjustment capabilities for optimal drilling in diverse terrains. This multifunctional rig excels in various construction techniques, including auger rod drilling, dth. Supplier highlights: This supplier mainly exports to the United States, Mexico, and Canada, offering full customization, design customization, and sample customization services. Additionally, their customer satisfaction rate is extremely high, with a positive review rate of 100.

Stand-type pneumatic down-the-hole drilling for photovoltaic

CN210977306U

The utility model relates to an auxiliary assembly technical field for the drilling especially relates to a pneumatic down-the-hole drill stand supporting structure.
