

Sungrow s energy storage system market share

Overview

While Tesla maintained its crown, Chinese competitor Sungrow significantly narrowed the gap, holding onto second place with 14% market share – reducing Tesla's lead from 4 percentage points in 2023 to just 1 percentage point in 2024. Wood Mackenzie's 2025 Global Battery Energy Storage System Integrator Ranking reveals intensifying regional competition and shifting market dynamics. Tesla retained its top spot for the second year-in-a-row as lead producer in the battery energy storage system (BESS) integrator market with a 15%. Tesla has overtaken Sungrow as the largest global producer in the battery energy storage system (BESS) integrator market, earning 15% market share in 2023, according to Wood Mackenzie's latest Global battery energy storage system integrator rankings 2024 report. In last year's Wood Mackenzie report, Tesla retains the top position in the global battery storage market, but Sungrow moves within one point, revealing intensifying rivalries and a rapid reshaping of regional dynamics in 2024. The firm has established a stronghold in supplying inverters for utility-scale solar, and is trying to expand its presence in distributed solar. Distributed solar is a more.
