

Supplier of shock-resistant mobile energy storage battery cabinets

Overview

We fabricate structural frames and enclosures for lithium-ion, lead-acid, and solid-state battery applications across the energy, transportation, telecom, and industrial sectors. Machan offers comprehensive solutions for the manufacture of energy storage enclosures. Designed for optimal performance, safety, and scalability, they ensure seamless integration with BESS. Fabricated Metals manufactures indoor and outdoor industrial enclosures to meet the needs of the Battery + Energy Storage industries. Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid. Most industrial off-grid solar power systems, such as those used in the oil & gas patch and in traffic control systems, use a battery or multiple batteries that need a place to live, sheltered from the elements and kept dry and secure.

Supplier of shock-resistant mobile energy storage battery cabinets

Custom Battery Rack Fabrication for Energy & EV Systems

We fabricate structural frames and enclosures for lithium-ion, lead-acid, and solid-state battery applications across the energy, transportation, telecom, and industrial sectors.
