

# The photovoltaic panel can't be turned on

## Overview

---

How can I fix a solar panel at home?

Check for dirt, cracks, or loose wires. Clean the panels with a soft cloth and distilled water. If your solar system isn't operational yet, you're not alone—many homeowners experience holdups due to paperwork, inspections, or utility issues. Utility Approval (Permission to Operate - PTO) Is Pending Before your solar. Are your solar panels not working properly?

Is your inverter giving a warning light on its display?

There must be a technical issue with your system while producing and delivering the desired amount of power. For example, higher electricity bill could just be due to a utility billing change. That's why monitoring tools like the Enphase App are helpful. I learned this the hard way when my entire pathway lighting system “died” last fall, only to discover a thin film of pollen had cut charging efficiency by 70%. Wipe the. What needs to happen before you turn on your solar panels?

Before your solar panels can be turned on, you need permission to operate, or PTO.
