

# The photovoltaic panels are covered with tiles

## Overview

---

Solar roof tiles, also called solar shingles, are small, discrete solar panels designed to look and function like traditional roof tiles. Solar roof tiles represent the cutting edge of building-integrated photovoltaic (BIPV) technology, offering homeowners a revolutionary way to generate clean energy without compromising their home's aesthetic appeal. Unlike traditional solar panels that sit on top of existing roofing materials. Much of that can be achieved with a relatively new alternative to solar panels: solar shingles or solar roof tiles. Photovoltaic. Photovoltaic roof tiles stand out as a remarkable option, seamlessly integrating solar technology into roofing materials.
