

The photovoltaic power generation bracket is rusted

IP65/IP55 OUTDOOR CABINET

OUTDOOR TELECOM CABINET

OUTDOOR ENERGY STORAGE CABINET

19 INCH

Overview

The surface of the carbon steel is hot-dip galvanized and will not rust for 30 years in outdoor use. Is the rust of photovoltaic brackets corrosion if wrong metals are used together. The related products of the solar support system are made of carbon. Let's face it - most solar installers have that one nightmare project where brackets started resembling Swiss cheese within 18 months. Keep the panels clean by removing dirt and.

The photovoltaic power generation bracket is rusted

Will photovoltaic brackets rust

High quality - in the production of our PV bracket made of rust-proof stainless steel 1.4301, we pay attention to precise and high-quality workmanship in order to offer you an
