

Togo solar power generation system

Overview

Togo is set to take a decisive step toward universal electricity access by 2030 with the imminent launch of an ambitious 400 MW solar energy project. (Togo First) - In Togo, 137 MW of new renewable energy projects are under development. Prime Minister Victoire Tomegah-Dogbé revealed this on December 3 in Lomé. This was during the West Africa Energy Cooperation Summit (WA-ECS) held from December 3 to 5. This program is part of the national energy strategy driven by President Faure Gnassingbé, who has made the energy transition a key pillar of the. Meridiam has signed a 25-year Concession Agreement with the Republic of Togo and EDF for the design, construction, financing and operation of a 64 MWp photovoltaic solar power plant in Sokodé, in the centre of the country.
