Tunisia microgrid design

Analysis of the Li-ion Batteries Modeling Choices For Microgrid Design

This paper presents different Li-ion battery models integrating energy efficiency and aging in the frame of microgrid design. More specifically, it compares the quantitative and qualitative differences of the ...

Project 7-271 Tunisia

This project brought together numerous facets of research, modeling, training,

Lithium battery parameters

Product capacity: 100Ah

Product size: 135*197*35mm

Product weight: 1.82kg

Product voltage: 3.2V

internal resistance: within 0.5

technical design, and commercialization to develop its MICROGRID platform (MGP), a platform with state-of-the-art ...
