

Tuvalu electricity policy

Overview

The Tuvalu National Energy Policy (TNEP) was formulated in 2009, and the Energy Strategic Action Plan defines and directs current and future energy developments so that Tuvalu can achieve the ambitious target of 100% renewable energy for power generation by 2020. It defines Vision and Goals and addresses the following topics: Energy Sector Planning, Coordination. are fully realised. In developing the energy policy framework, Government is mindful of the critical role of the energy sector in the attainment of its overall socio-economic development goals of improving the livelihood e Government agenda. Tuvalu has committed to sourcing 100% of its electricity from renewable energy. This is considered possible because of the small size of the population of Tuvalu and its abundant solar energy resources due to its. Despite a heavy reliance on imported fossil fuels, which constituted 96% of its energy supply in 2021, Tuvalu has made strides in solar energy implementation, including the establishment of the first grid-connected solar power system in the Pacific Islands, supported by the e8 Alliance.

Wind energy
Filmography

Renewable energy in Tuvalu is a growing sector of the country's energy supply. Tuvalu has committed to sourcing 100% of its electricity from renewable energy. This is considered possible because of the small size of the population of Tuvalu and its abundant solar energy resources due to its tropical location. It is somewhat complicated because Tuvalu consists of nine inhabited islands. The Tuvalu National Energy Policy (TNEP) was formulated in 2009, and the Energy Strategic Action Plan defines and directs curre...
