

# UK solar energy storage costs

## Overview

---

Solar battery prices in the UK vary significantly based on storage capacity, brand, and whether you're installing alongside new solar panels or adding to an existing system. The cost per kWh of storage typically ranges from £265-£415, with prices generally decreasing per kWh as capacity increases. Adding battery storage to your solar panel system has become increasingly popular, with around 94% of new UK solar installations now including a battery. But with prices ranging from £3,000 to over £10,000, understanding whether the investment makes financial sense for your household requires. The retail cost of home solar batteries typically ranges from £1,200 to £5,000. However, a more precise way to assess their value is by using the £/kWh metric, which stands for price per kilowatt-hour of storage. This pricing can vary between £265 and £415 per kWh. The more affordable options often.
