

Ukrainian Air Energy Storage Power Generation Company

Overview

Ukrainian energy company DTEK plans to invest €140m (\$155m) to develop a range of energy storage systems with 200MW capacity to bolster the country's energy security and improve grid stability. The initiative will establish DTEK as the country's largest investor in energy storage. One of the facilities is a wholly owned development of Kness. With a total capacity of 107MWp, it focuses on enhancing energy efficiency and sustainability in Ukraine's renewable energy market through the design.
