

# Utility-scale energy storage kenya

## Overview

---

Kenya has reaffirmed its commitment to accelerating solar energy deployment and integrating energy storage systems as part of efforts to strengthen grid reliability and meet rising electricity demand. Kenya currently has approximately 210 MW of grid-connected solar, accounting for 6. Nairobi, Kenya — Intersolar Africa 2026 at Sarit Expo Centre highlighted a pivotal shift in the continent's. Energy Storage Africa (ESA) is delivering the future of energy for Africa with Battery Energy Storage Systems (BESS).

## Utility-scale energy storage kenya

---

### Energy Storage Africa

ESA deploys large-scale BESS to help stabilise national grids, enable renewable firming, and provide clean, low-cost peak power. We are currently developing projects in Malawi (60MW/240MWh) and ...
