

Vatican Wind Solar and Energy Storage Plant

Overview

ROME (AP) — Italy agreed Thursday to a Vatican plan to turn a 430-hectare (1,000-acre) field north of Rome, once the source of controversy between the two, into a vast solar farm that the Holy See hopes will generate enough electricity to meet its needs and turn Vatican City into. ROME (AP) — Italy agreed Thursday to a Vatican plan to turn a 430-hectare (1,000-acre) field north of Rome, once the source of controversy between the two, into a vast solar farm that the Holy See hopes will generate enough electricity to meet its needs and turn Vatican City into. The Holy See and the Italian Republic have signed an agreement to build an agrivoltaic plant in the Vatican's Santa Maria di Galeria area just outside of Rome, aiming to supply Vatican City State with renewable energy. Photo: Vatican Media According to the Vatican's press office, the installation will apply the most advanced solutions currently. A view of the antennas of the Vatican Radio, which beams the Pope's words around the world, is seen in Santa Maria di Galeria, on the outskirts of Rome. They are built with a series of solar panels that coexist with crops, livestock or both. Where is the. In line with the principles of the encyclical 'Laudato Si' and a United Nations agreement on climate change, Pope Francis is making the Vatican "greener."
