Vietnam monocrystalline silicon solar modules

Trina Solar begins producing 210mm monocrystalline wafers in Vietnam

Vertex modules that Trina produces outside China, help meet the growing worldwide demand for PV modules with high power, high efficiency, high reliability, high energy yield and low ...

Trinasolar Brings Advanced Solar Innovations to Vietnam,

...

"Our Vietnam factory is our largest outside China and is doing high value, advanced manufacturing such as turning wafers into solar cells as well as module assembling."
