

# Weichuangjing Microgrid

## Overview

---

A microgrid, regarded as one of the cornerstones of the future smart grid, uses distributed generations and information technology to create a widely distributed automated energy delivery network. This paper p.

## Weichuangjing Microgrid

### Research on the realization path of China multi-agent value co

This research introduces a novel application of Prahalad and Ramaswamy's value co-creation theory by analyzing 60 microgrids throughout China as case studies.
