

What is the voltage of a 60v inverter

What is the voltage of a 60v inverter

If the minimum start up voltage of an inverter is 60v, which

Min. startup: 60v. MPPT range: 100 - 250v. Maximum input voltage: 275v. This means that if the voltage it gets from the panels is under 60v, it will not start up. So even on cloudy days, we want the array ...
