How do black spots on photovoltaic panels appear

To determine if a solar panel is bad, look for signs such as decreased energy production, physical damage or discoloration, hot spots, potential-induced degradation (PID), and monitoring system alerts.

- LiFePO₄ Battery, safety
- Wide temperature: -20~55°C
- Modular design, easy to expand
- The heating function is optional
- Intelligent BMS
- Cycle Life:> 4000
- Warranty:10 years
