

# Which lithium energy storage power supply is best in Chile

## Overview

---

With transmission lines at overcapacity and permitting delays slowing the development of new grid infrastructure, battery energy storage systems (BESS) have surged as a profitable alternative for Chilean power producers. Pursuant to Law 21,505, the Chilean Ministry of Energy has proposed to amend the regulations on capacity payments to allow for those payments to be applicable to energy storage systems. The proposal is expected to be approved by the Office of the General Comptroller this year and includes. The evolution of Chile's lithium industry is analyzed, emphasizing two recent key policy initiatives: the 2015 National Lithium Commission report and the newly launched national lithium strategy. The salient features of these initiatives are outlined. Are battery energy storage systems a viable. Natura Energy SpA specializes in renewable energy solutions, particularly focusing on high-quality photovoltaic solar energy products and systems. They offer a powerful 280Ah lithium battery that can store up to 14. Lithium is recognized as an increasingly important resource worldwide.
