

# Xinjia Solar Power Plant

## Overview

---

The new solar plant, with an installed capacity of 1GW and an investment of 2. It is expected to be connected to the grid in April 2025 and generate 1. The plant covers an area of 33,000 acres (200,000 Chinese mu) and is. Recently, a subsidiary of the China Green Development Investment Group has inaugurated the world's largest solar plant, a 3. 5-gigawatt operation located in the Xinjiang region, as reported by PV Magazine. This project, located in the desert region of Midong District in Urumqi, Xinjiang, has set a new record for the largest PV. TBEA Xinjiang Guyuan Solar PV Park is a 400MW solar PV power project. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently active.
